## MRIS Parent Commitment

MRIS values the strong family/school partnership which underpins the ethos/value of our school.

It is important for the school's continuing success that prospective families understand the commitment in time and energy that will be required of them.

In an effort to cater for all families, MRIS offers a wide range of options to fulfill this commitment.

Single-parent families and families with working parents can now enjoy more flexible parental involvement, whilst the school continues to maintain its history of excellence and nurture the important parent/school partnership. You should discuss your circumstances with the Principal at enrolment or anytime during the year should your personal circumstances change.

You will be asked to –

- Contribute 20hrs (family) or 10hrs (sole-parent family) of help each term.  
Hours can be accrued through the participation in the STEP course, classroom rosters, fundraising events, Busy Bees and portfolios e.g. grounds/maintenance, Book Club, administration assistance, special projects, book covering, library assistance.
- Participate in Busy Bees at least twice a year prior to the commencement of the term.
- Systematic Training for Effective Parenting (STEP)

# STUDENT ENROLMENT & BACKGROUND DETAILS UPDATE

## Information to be updated if incomplete or changed

The attached information is held on the school's administrative system. Please check the information and make any changes that are necessary, provide any missing data, or indicate that no changes are necessary. **Please sign and return the Student Update Form to the school** to enable your child's enrolment records to be kept up-to-date.

The information on this document is provided to assist in updating the background data held in the school's database with your child's enrolment records. The full text of the questions is reproduced below and the occupation group details are overleaf.

## Why the information is needed

All schools in Australia are required to collect background information on students as part of national reporting arrangements aimed at providing a fairer education system for all children. This background information is collected by schools in a uniform way across the country.

The information collected will not be used to identify individual students. It will be used to better understand how background factors may affect student educational levels, and help in developing policies to better assist those children not meeting expected standards.

While it is not a legal requirement to provide all of the background information requested, the information is sought to enable the Department to:

- Collect necessary statistical information and undertake analysis of the composition and performance of the student population;
- Construct socio-economic indexes of schools; and
- Meet State and National reporting requirements.

## Security and confidentiality

The information provided for enrolment records is stored securely in local school and Departmental databases. The management of these databases is governed by State and Departmental policies to ensure security, privacy and confidentiality.
